

JAPANESE SKYPE PERMISSION

As part of the Japanese program at Cannonvale State School, we participate in Skype sessions with schools in Japan where they learn English as part of their curriculum. Communicating with the students in Japan is an amazing chance for our students to practice the language they are learning in class, as well as deepen their understanding of Japanese culture.

Skype is used as a whole class to have live conversations with students in Japan. These Skype sessions occur during class time and students discuss curriculum related topics. Teachers will supervise these sessions and no personal identification other than first name and year level will be provided.

We work closely with the teachers in Japan to organize a program beneficial to all students and topics may include: hobbies, weekend activities, pets, where we live and family members (number of brothers and sisters).

Please complete the below permission to allow your child to participate in these sessions for the duration of their enrolment at Cannonvale State School. You can withdraw consent at any time by contacting the school. Students without permission will sit to the side of the class so that they are not visible to the students in Japan and participation in activities may be limited.

If you have any questions please contact our Japanese teacher, Karolyn McKeon, by phone or email (kxkel3@eq.edu.au).

Yours sincerely

Karolyn McKeon
