

Cannonvale State School eSmart ICT Policy

This policy applies to the users of the Cannonvale State School and Education Queensland computer network and equipment and applies to all staff, students and any other users of digital technologies in the school. This policy encompasses the use of all electronic communications whether or not these are published to the web or sent electronically, and includes but is not limited to:

- Browsing and using search engines
- Publishing
- Social media
- Streaming media
- Email and instant messaging
- Taking photos
- Recording sound or video
- Posting and commenting on blogs, discussion forums & notice boards
- File transfer
- Video conferencing

The policy covers the use of ICT equipment owned by the school and personal items such as mobile phones, smart phones and wireless capable devices.

Student Access

Students in all year levels are offered access to the school network, to the internet and the Queensland Education Department network.

School Network

Within the school network students in Years Prep – 2 share a common year level folder for their work. Students in Years 3-6 are allocated a personal folder for their own work. All students can access a shared folder of school-wide resources such as shared student work, learning tools, software and educational games. Student access to the school network is by year level or individual login and password. Students in Years 2-6 will also have access to OneDrive, Teams and SharePoint.

Internet

Students access the internet through use of their student login and password. Many unsuitable or inappropriate sites are blocked by the internet service provider and cannot be accessed with a student account.

The network administrator can also block and unblock sites if deemed necessary. Students will only access the internet when a teacher is directly supervising individuals or a class group. Students will log on using a specified password. The school will monitor student usage and attempted violations.

Email

Students are allocated an email address as part of the school network. Email content is filtered centrally. Students will not be allowed to check, read or send email from private accounts (e.g., Hotmail or Gmail).

Social Media

Students are blocked from accessing social media sites such as Facebook, Kik and Twitter on the school network. For information about the use of social media on smart phones or other privately owned mobile devices outside school hours refer to the Acceptable Use sections of this policy.

Mobile Phones

The school acknowledges that some students own or have access to mobile phones and other web capable devices which may enable them to make phone calls, text, browse the web and access social media, etc. Students, however, are not permitted to have mobile phones or any smart devices including smart watches at school and must hand them in at the office when they arrive at school and collect them before leaving. The school acknowledges that students who bring mobile phones to school might use them before or after school in an unsupervised environment. Phones are not to be used in the bus line or on the bus.

Wireless Network

The school intranet network and internet is accessible through wireless access points (WAPs) located throughout the school. The wireless network is not an open network and can only be accessed with a digital certificate or password. Students are not permitted to access the wireless network using smart phones or other personal wireless capable devices.

Acceptable Use – Parents

Parents at Cannonvale State School have a responsibility to ensure that they:

- are familiar with the school's Acceptable Use Agreement.
- report any incidents of cyber bullying, or unsafe cyber-behaviour that they become aware of to the school.
- do not use mobile phones, cameras or other digital devices to record audio and visual material that is not authorised as part of the school curriculum programs.
- do not breach the privacy of student, staff, and members of the school community through any unauthorised recording or filming (e.g., on sports days when individual student media permission has not been sought)
- do not spread inappropriate or slanderous information through digital or social media or other means.

Acceptable Use – Staff

All usage of the school network and resources must comply with laws relating to discrimination, equal opportunity, privacy and workplace bullying and harassment, including cyber bullying.

- The school network is primarily a business tool to be used for educational purposes. It is to be used like other business communications and comply with any codes of conduct which apply to the user, such as the Code of Conduct for the Queensland Public Sector, and Teaching Service Orders.
- Users of the network may use communications for limited personal use as long as this does not interfere with their professional responsibilities, is reasonable and not excessive. Unreasonable or excessive personal usage constitutes a failure to abide by this policy and may result in disciplinary action.
- Subject to limited personal use, the school network and internet access must generally not be used to conduct private business or private commercial transactions, to gamble, or carry out research into non-work related topics.
- Non-compliance with this policy will be regarded as a serious matter and appropriate action will be taken when a breach of the policy is identified.

Any failure to abide by this policy may result in disciplinary action including revoking or restricting any right to use the equipment or network.

Teachers are responsible for ensuring all students under their responsibility are taught about cyber safety included in ICT lessons or as part of general class procedures before access to devices and the intranet.

Acceptable Use – Students

When students use digital technology, they must agree to:

- be a safe, responsible and ethical user whenever and wherever they use devices
- support others by being respectful in how they communicate with others and never write or participate in online bullying (this includes forwarding messages and supporting others in harmful, inappropriate or hurtful online behaviour)
- talk to a teacher if they feel uncomfortable or unsafe online or see others participating in unsafe, inappropriate or hurtful online behaviour
- seek to understand the terms and conditions of websites and online communities and be aware that content they upload or post leaves a digital footprint
- protect their own privacy rights and those of other students by not giving out personal details including full names, telephone numbers, addresses and images
- use the internet for educational purposes and use the equipment properly
- abide by copyright procedures when using content on websites (ask permission to use images, text, audio and video and cite references where necessary)
- think critically about other users' intellectual property and how they use content posted on the internet.
- not interfere with network security, the data of another user or attempt to log into the network with a username or password that is not their own
- not reveal their password to anyone except the system administrator or the teacher
- not bring or download unauthorised programs, including games, to the school or run them on school computers
- protect the privacy of others and never post or forward private information about another person
- only take photos and record sound or video when it is part of an approved lesson
- seek permission from individuals involved before taking photos, recording sound or videoing them
- seek appropriate (written) permission from individuals involved before publishing or sending photos, recorded sound or video to anyone else or to any online space
- be respectful in the photos they take or video they capture and never use these as a tool for bullying.

The Acceptable Use Agreement also applies during school excursions, travelling to and from school, camps and extra-curricular activities. Students must acknowledge and agree to follow these rules. Access to the internet and mobile technology at school will be renegotiated if a student does not act responsibly and follow the guidelines of the agreement.

Digital Technologies Acceptable Use Agreement for Students

Dear Parents / Caregivers

This agreement should be discussed with your child. For younger children, it is acceptable for only the first section to be discussed. **Please tick the points you have discussed with your child to enable your child to use our school network.**

When I use digital technology (computers, tablet computers, cameras) I agree to:

Section 1 – For all children

- be a safe and responsible user of digital technologies
- talk to a teacher if I feel worried, unsafe or scared using digital technologies or if I see others using unsafe or hurtful behaviour when using devices
- not tell my password to other children
- not log into the network with someone else's username or password
- use the internet for educational purposes only
- not bring or download apps or games to play on school computers
- be respectful in the photos I take or videos I make and never use these for bullying
- only take photos and record sound or video when it is part of a lesson
- ask students or staff for permission before taking photos, recording sound or videoing them

Section 2 – For older children

- be an ethical user whenever and wherever I use digital technologies
- support others by being respectful in how I communicate with them and never write or participate in online bullying (this includes forwarding messages and supporting others in harmful, inappropriate or hurtful online behaviour)
- understand the terms and conditions of websites and online communities and know that files, text and pictures I upload or post will always be online for everyone to view
- protect my privacy rights and those of other students by not sharing personal details including full names, telephone numbers, addresses, email addresses and images
- protect the privacy of others and never post or forward private information about another person
- follow copyright procedures when using content on websites (ask permission to use images, text, audio and video and cite references where necessary e.g. use Google filtering and Safe Search)
- think carefully about other users' intellectual property (their files, music, videos and pictures) and how I use content posted on the internet
- seek appropriate (written) permission from individuals involved before publishing or sending their photos, recorded sound or video to anyone else or to any online space

This Acceptable Use Agreement also applies during school excursions, travelling to and from school, camps and extra-curricular activities such as sports days.

We acknowledge and agree to follow this agreement for the duration of my child's enrolment at Cannonvale State School. We understand that access to the internet and digital technologies at school will be renegotiated if a breach of this agreement occurs.
